

UNISON improving NHS PAY

After years of pay caps and freezes
UNISON members said enough is
enough and told the government to
Pay Up Now!

The government listened which led
to UNISON and the other NHS unions
negotiating with NHS employers and the
government to improve pay for the whole
team of NHS staff.

These negotiations have resulted in a framework
agreement which UNISON is recommending to
members and will be consulting you on from
mid April.

The government has agreed to fund this deal so
it won't cost jobs or patient care.

Find out what the deal means for you at
www.nhspay.org
